### New Hull Design

- The new 290DC features a semi-displacement hull designed to give the best ride at cruise for twin 250HP and 9' 6" beam.
- The 290DC features the patented Vectorflo® Air Cushion System that gives all World Cat boats their uniquely smooth ride and superior rough-water performance.
- The 290DC's square bow – similar to all World Cat power catamarans – allows about twice as much bow space compared to a monohull of the same length and beam.

### Family Friendly Amenities

- The 290DC is designed to accommodate the needs and comforts of the entire family so that outings are more enjoyable for adults and kids alike.
- The 290DC easily converts between a fishing vessel and a family boat by adding or removing cushions. It accommodates up to 12 people and features a removable table.
- The 290DC features World Cat's first Euro transom, making it easy to board the power catamaran or haul large fish onto the deck.
- Molded toe rails and retractable aft seating across the 290 DC's transom create an expansive cockpit.
- A more spacious head includes Corian countertops and a sink.

### Enhanced Protection from the Elements

- Heavy winds, torrential downpours, and scorching heat no longer keep boating enthusiasts from enjoying excursions on their World Cat.
- The 290DC features a dual windshield with windshield wipers and fresh-water pump.
- Dual double-helm seats on each side of the center aisle are protected behind the windshield. Six passengers – four facing forward and two facing aft – are completely protected from the elements with the optional custom canvas enclosure.

### Additional New Features on the 290DC

- The more accessible windlass is 12 inches farther back than on other World Cat models. The windlass setup includes its own anchor and rode locker that can be accessed by the deck floor.
- Increased capacity fishing boxes with live wells and boxes integrated into the four-person helm seating area impress fishing enthusiasts.
- The boat features integrated hard-top lighting and the boat's hull is available in a variety of colors including: fighting lady yellow, Carolina blue, sapphire blue, and ruby red.
